Last updated: 30/9/2020

Key Experience:

Watchet Festival 2019 // King Sound

Stage Technician

Watchet Festival is a small 4000 person weekend event in Watchet, Somerset. As a stage technician I was responsible for preparing backline and drum risers as well as connecting stage-patch breakout boxes. My work helped lead to successful, timely stage changes between each act.

YogCon 2019 // Fourth Floor Creative

Stage Runner Supervisor

The first ever YogCon was held with a in-person audience of 800 and an online audience of 20,000. As the stage runner supervisor it was my responsibility to mobilise the runners and get the main stage changed in the 15 minutes between each show. This was done successfully each time in around 5 minutes.

Larmertree Festival 2019 // King Sound

Stage Construction

I was part of a team of non-riggers de-constructing King's 15M Orbit Stage, then preparing steelages for loading onto the 18T trailer

The One Show - "Hopping Mad" 2019 // Off The Fence

Running/Camera Operator

I worked on this piece to support the director and provide B-Cam operation for interviews, B-roll and the main event of the day.

Additional Experience:

2018-2020 // Tropicana, Weston

Head Venue Technician

Election 2019 // [Redacted Political Party]

Broadcast Technician

Bristol Pride 2019 // King Sound

Stage Construction

Weston Pride 2019 // King Sound

Stage Construction

The One Show - "Changing MOTs" 2018 // Tigress

Running/Boom Operator
